<https://www.eventbrite.com/e/innovative-reuse-committee-june-meeting-tickets-343244071257>

Space is limited, please RSVP by June 3rd.

Workshop Objective: to learn about progress from two of the groups awarded support from the RFP.

5:30 **Welcome and Introductions** – *Sari Rothrock, RK&K*

5:40 **Results from Applied Research & Development Projects**– *Kristen Keene, MDOT MPA*
Kristen Keene will provide an overview of the Request for Proposals process and introduce speakers from Belden Eco-Products, LLC and Northgate Environmental Management, Inc. Meeting attendees will have an opportunity to ask questions after each presentation.

Permeable Pavers- *Ryan Andre, Belden-Eco Products, LLC*

Belden Eco-Products has been working to combine dredged sediment with other materials to develop ceramic bricks and permeable pavers.

Concrete Structures- *Sam Merrill, Northgate Environmental Management, Inc.*

Northgate Environmental Management has partnered with other groups to develop concrete traffic barriers and modular shoreline protection structures using dredged sediments.

6:55 **Next Meeting**

The next meeting will be held on Tuesday, September 20th.

7:00 **Adjourn**
